Jan-Jun 2025

*The name "Tesai Foundation" is in the process of change for "Fundación Visión".

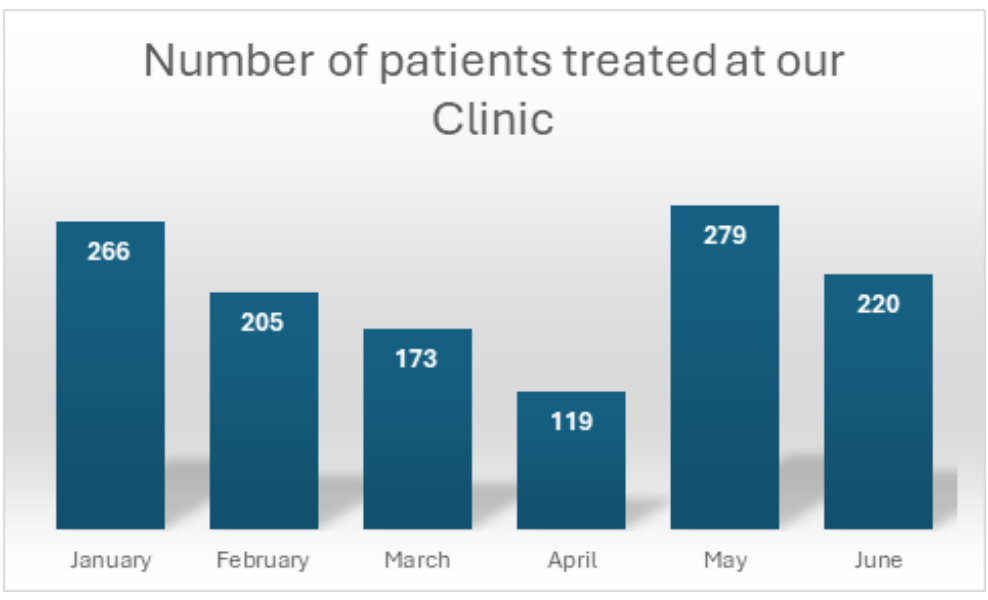
A very auspicious first half of 2025

In the first half of 2025, we carried out a significant number of actions aimed at providing comprehensive visual care to vulnerable populations and communities with difficult access to eye health services. All these actions were carried out with a view to fulfilling our three fundamental premises:

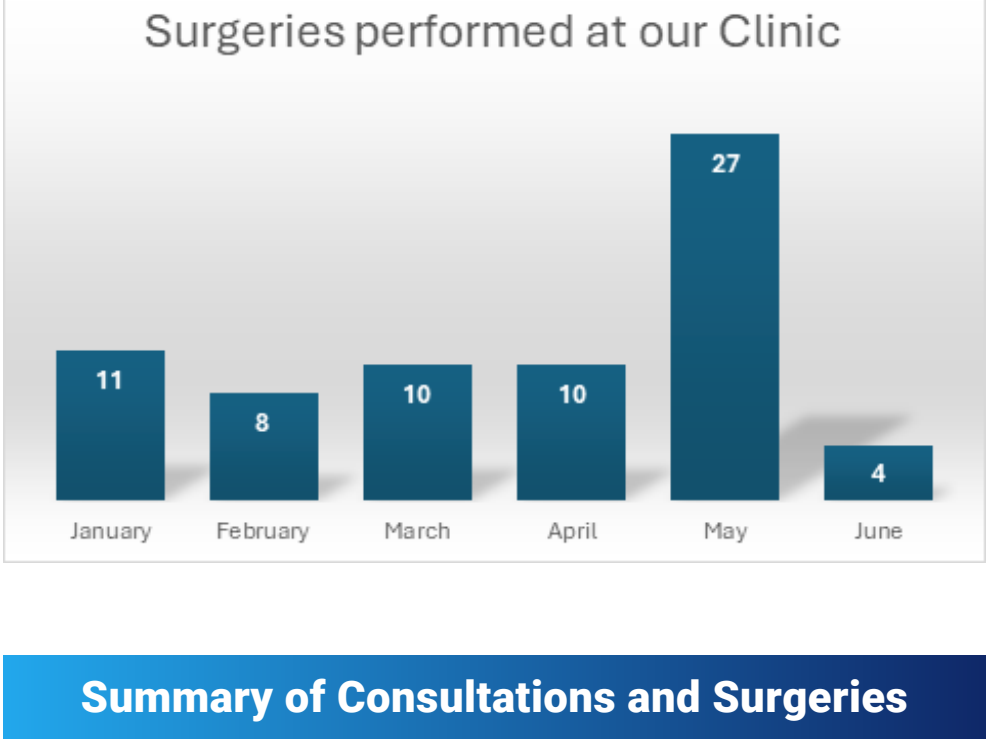
- Provide timely and quality ophthalmic medical care.
- Promote the prevention and early detection of visual pathologies.
- Develop community and educational campaigns in visual health.

More than 1,200 people assisted in 6 months at our Clinic in Santa Cruz

Throughout the first half of 2025, our clinic located in Santa Cruz provided care to
1,262 people in the area, offering them high-quality ophthalmological services.



Likewise, during the same period, 70 surgical procedures were carried out in our facilities, with a peak in the month of May.



Summary of Consultations and Surgeries

Month	Activity Carried Out	Place	Number of patients Attended	Number of surgeries performed
January	Ophthalmological consultations and recruitment of patients for surgery	Tesai Foundation Clinic	266	11
February	Ophthalmology consultations and patient recruitment for surgery	Tesai Foundation Clinic	205	8
March	Ophthalmological consultations and Recruitment of patients for surgery	Tesai Foundation Clinic	173	10
April	Ophthalmology consultations and patient recruitment for surgery	Tesai Foundation Clinic	119	10
May	Ophthalmological consultations and Recruitment of patients for surgery	Tesai Foundation Clinic	279	27
June	Ophthalmology consultations and patient recruitment for surgery	Tesai Foundation Clinic	220	4

Outside the walls: bringing visual health to the most vulnerable sectors of

As an institution, we understand that health must reach every corner of the country, and especially those neglected sectors where thousands of people live without access to basic medical services. Our work is significant, as it can mark a before and after in the quality of life of the beneficiaries, completely changing not only their lives but also their families. For this reason, in this first half of the year we work intensely to reach those most in need, achieving the following impact in the community:

RESULTS	
Total patients seen	917
Surgeries performed	28
Benefited communities and neighborhoods	7

The populations reached were:

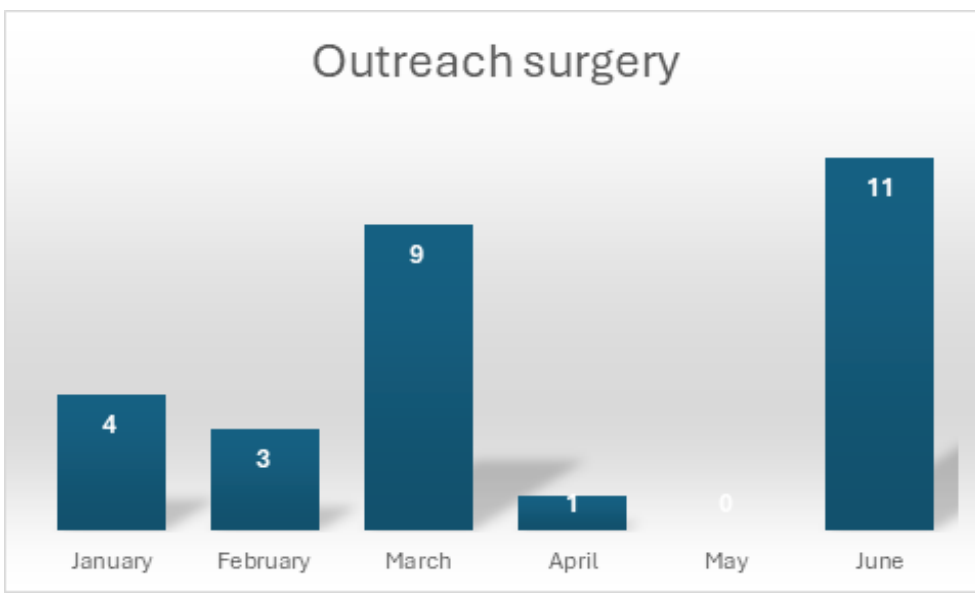
- Villa Nueva
- Ixiamas
- Municipality of Cotoca to 4 neighborhoods (B/Patujú B/ Don Chichi B/ Mapaizo B/ El Carmen)
- Santa Cruz (staff of the National Bank of Bolivia and UPSA University)
- Yacuiba

Our team of professionals, in action at Villa Nueva.

Bringing our services to the community of Cotoca.

Our Impact on Surgeries

Our work at the extramural level allowed us, in this first semester, to capture a total of 28 surgical patients, who were transferred to our clinic in Santa Cruz and received their long-awaited surgery at an affordable cost. The patients benefited were, for the most part, people with very low resources.



Month	Activity Carried Out	Place	N° Patients Treated	Number of surgeries performed
January	Ophthalmological consultations and recruitment of patients for surgery	Villa Nueva	19	4
February	Ophthalmological consultations and Recruitment of patients for surgery	Villa Nueva	16	3
March	Ophthalmology consultations and patient recruitment for surgery	Villa Nueva-Ixiamas	12	9
April	Ophthalmological consultations and recruitment of patients for surgery	Villa Nueva-BNB-Municipality of Cotoca	473	1
May	Ophthalmological consultations and Recruitment of patients for surgery	UPSA University	10	0
June	Ophthalmology consultations and patient recruitment for surgery	Villa Nueva - Labosur Clinic Yacuiba	68	11

We continue to grow, but there is still much to conquer

In terms of extramural care, one of the greatest achievements of the first half of the year was to have been able to carry out a work neatly coordinated with municipalities and local organizations. This allowed us to increase our impact and reach a large number of families in vulnerable situations. We were also able to expand our coverage of services in rural areas, precisely where there is the greatest need.

We are very happy for these important achievements, but we know that the work is just beginning and that the need in the country is still very great.

We count on your support to continue bringing health and hope to those who need it most!
